SIS GLOBAL

Week 12 · September / October 2026

21 Sep – 2 Oct

GROWTH EXPERTS × SIS GLOBAL

Weekly Growth Report

Campaign performance, outbound progress, and priorities for the week ahead — all sourced from Smartlead.

01

New campaign launched

EDUCAUSE Attendees is live — 612 emails sent across 4 mailboxes, 153 sends each. Phase 2 outbound is underway.

02

72.55% open rate

444 of 612 emails opened — strong early engagement on a fresh audience. Best performing mailbox: ivan.macdonald@sis-global.co at 77.78%.

03

Replies pending

0 replies so far — typical for a first send on a cold list. Follow-up sequences and Power Automate activation are the top priorities.

THIS PERIOD

Performance

21 September – 2 October 2026

SENT	OPENED	REPLIED	BOUNCED
612	**444**	**0**	**16**
612 leads · EDUCAUSE Attendees	72.55% open rate	0.00% · first send of sequence	2.61% · 4 mailboxes

PERFORMANCE SUMMARY

612 emails sent across **4 mailboxes** — 153 per mailbox — targeting the EDUCAUSE Attendees list. Open rate of **72.55%** is consistent with Phase 1 performance, confirming the sending infrastructure is healthy going into Phase 2. Bounce rate of 2.61% (16 emails) is slightly elevated and worth monitoring as sequences continue. No replies yet — normal for first-touch cold outreach on a new list.

WHAT THIS MEANS

The EDUCAUSE Attendees audience is engaging at the same level as Phase 1 campaigns. With 444 opens and 0 replies, the priority is to ensure follow-up sequences are properly scheduled and Power Automate is live to capture replies into D365 when they arrive. The 16 bounces should be cleaned from the list before step 2 sends.

SINCE WE STARTED

Outbound performance progression

Three phases of outbound
21 September – 2 October 2026

	PHASE 1 Historical D365	PHASE 2 Optimised D365	PHASE 3 Smartlead (cumulative)
DELIVERY RATE	~80%	98.36%	~97%
OPEN RATE	~28%	65.00%	71.5%
BOUNCE RATE	~13%	1.64%	1.69%
REPLY RATE	—	—	0.20%

PHASE 1

Historical D365

Existing outbound approach using designed email templates, longer-form messaging and one-off sends.

PHASE 2

Optimised D365

Simplified email design and copy, increased personalisation and improved contact-data quality.

PHASE 3

Smartlead — Phase 2 Active

1,482 emails sent across 6 campaigns · 71.5% cumulative open rate · 3 replies total to date.

Cumulative update: Adding EDUCAUSE Attendees (612 sends) brings the Phase 3 total to 1,482 emails. Open rate holds steady at 71.5%, confirming the infrastructure performs consistently across new audiences. Bounce rate (1.69%) is up slightly from 1.03% — the 16 bounces on EDUCAUSE Attendees warrant a list hygiene pass before follow-up sends.

In progress

WHAT WORKED THIS PERIOD

72.55% open rate across 612 sends confirms the EDUCAUSE Attendees audience is responsive and the infrastructure remains healthy at higher volume. All 4 mailboxes performed in a tight band (69–78%), with ivan.macdonald@sis-global.co leading at 77.78%.

With 444 opens and 0 replies so far, the audience is aware — the next step is ensuring follow-up sequences trigger correctly and the copy drives action rather than just opens.

PHASE 2 FOCUS

Replies are the primary metric for the next two weeks. The 444 warm opens are the highest-value audience in the system right now — follow-up sequences and personalised step 2 emails must be in place before they go cold.

Clean the 16 bounces from the list. Activate Power Automate. Then assess whether HE SA should launch in parallel.

WHAT'S NEXT

Priorities for the week ahead

Week commencing 5 October 2026

Phase 2 · Follow-up sequences + infrastructure

01 Activate Power Automate write-back

Complete the Power Automate flow to push Smartlead replies into Dynamics 365 as lead activities. This is critical before replies start arriving from the EDUCAUSE Attendees follow-up sequence.

02 Schedule EDUCAUSE Attendees follow-up

444 opens and 0 replies — the audience is warm. Ensure step 2 and step 3 follow-up sequences are queued and the copy is optimised to drive a reply rather than just an open.

03 Clean 16 bounces from EDUCAUSE list

2.61% bounce rate is slightly elevated. Remove the 16 bounced addresses from the EDUCAUSE Attendees list before follow-up sends to protect domain reputation.

04 Assess HE SA campaign readiness

With 7 mailboxes not used on EDUCAUSE Attendees, the HE SA campaign can run in parallel. Confirm Apollo list is ready, upload to D365, and set a launch date for the week of 5 Oct.

WEEK 12 · SUMMARY

Phase 2 is live. 444 opens waiting for a reply.

Growth Experts × SIS Global
21 September – 2 October 2026

PHASE 2 LAUNCHED

612 emails sent

EDUCAUSE Attendees campaign is live. 72.55% open rate — consistent with Phase 1 benchmarks. Infrastructure holding strong at scale.

444 WARM OPENS

Reply window is open

0 replies on first send is normal. Follow-up sequences must go out before this audience goes cold. Reply copy is the next creative lever.

INFRASTRUCTURE

11 mailboxes connected

7 in use, 4 on this campaign — headroom for parallel launches. Power Automate activation is the key unlock for D365 reply tracking.

NEXT MILESTONE

First reply from EDUCAUSE Attendees + Power Automate live

Target week: 5 Oct 2026
Key unlock: Follow-up sequences active
