PERFORMANCE SUMMARY

Volume was low this week (44 sends) as all five campaigns completed their sequences. EDUCAUSE Cold produced the week's final sends via **3 active mailboxes** (ivan@sisglobal.co · ivan.macdonald@sisglobal.co · ivan@sis-global.co). Open rate hit **75.00%** — the strongest weekly rate to date — and the week produced **1 reply** with zero bounces. A strong finish to Phase 1.

WHAT THIS MEANS

Phase 1 sequences are complete. With 826 emails sent and a cumulative 70%+ open rate, the infrastructure is proven. The focus now shifts to Phase 2: launching new campaigns, re-engaging warm opens, and getting Power Automate live to close the reply-to-CRM loop.

SINCE WE STARTED

Outbound performance progression

Three phases of outbound
15 – 21 September 2026

	PHASE 1 Historical D365	PHASE 2 Optimised D365	PHASE 3 Smartlead (cumulative)
DELIVERY RATE	~80%	98.36%	~98%
OPEN RATE	~28%	65.00%	70.7%
BOUNCE RATE	~13%	1.64%	1.03%
REPLY RATE	—	—	0.34%

PHASE 1

Historical D365

Existing outbound approach using designed email templates, longer-form messaging and one-off sends.

PHASE 2

Optimised D365

Simplified email design and copy, increased personalisation and improved contact-data quality.

PHASE 3

Smartlead — Phase 1 Done

870 emails sent across 3 weeks · 5 campaigns completed · cumulative open rate 70.7% · 3 replies total.

Milestone reached: Phase 1 Smartlead sequences are complete. Delivery held at ~98%, opens at 70.7% (vs 28% baseline), bounces dropped to 1.03%, and reply rate is growing (0.34% cumulative). The next phase: re-engage warm opens, launch new campaigns, and activate Power Automate write-back to D365.

WHAT WORKED THIS WEEK

75% open rate on EDUCAUSE Cold final sends — the strongest open rate of any individual week. Zero bounces confirms that the list-hygiene work from Week 10 had a positive effect. The 3.03% reply rate (1 reply from 33 opens) shows engagement is building as sequences mature.

All three active mailboxes performed well — ivan@sisglobal.co led at 82.35%, followed by ivan.macdonald@sisglobal.co at 71.43% and ivan@sis-global.co at 69.23%.

PHASE 2 FOCUS

With Phase 1 complete, the next objective is to re-engage the ~614 leads who opened but did not reply. A targeted follow-up sequence via Smartlead, personalised to each campaign's vertical, is the highest-leverage next step.

HE SA campaign launch and Power Automate activation remain top priorities.

WHAT'S NEXT

Priorities for the week ahead

Week commencing 22 September 2026

Phase 2 · Re-engagement + new campaigns

01 Activate Power Automate write-back

Complete the Power Automate flow to push Smartlead replies into Dynamics 365 as lead activities. This closes the loop between outbound and CRM and unlocks follow-up tracking.

02 Re-engage warm opens

~614 leads opened but did not reply across the 5 completed campaigns. Build a personalised re-engagement sequence in Smartlead, tailored per campaign vertical, to drive replies from this warm audience.

03 Launch HE SA campaign

The South African higher education recruitment campaign has been pending since Week 9. Enrich the prospect list in Apollo, upload to D365, and launch the Smartlead sequence this week.

04 Review replies and qualify leads

3 replies received to date (BC UK × 1, EDUCAUSE × 2). Review reply content, categorise by sentiment in Smartlead, and determine next steps for each — meeting request or further nurture.

WEEK 11 · SUMMARY

Phase 1 is done. Phase 2 starts now.
